

# Nazia Hasan

## UX Designer

I aim to align business goals and end user satisfaction while conceptualizing solutions. I enjoy working with developers to harmonize UX & implementation works. I have a **Master's degree with UX major** and relevant **professional experience (4+ years)**. I love to face a challenge with empathy, focus on details and bringing uniqueness towards its solution.

## Experiences

### Head of UX

**Platform of Trust** Tampere, Finland Jul 2019 - Nov 2022

Starting as a **DX Developer**, towards being a **Product Manager, Design Lead in Concepts and APIs** and my last role, my focus is on data servitization and monetization field targeting build environment industry in Finland. My responsibilities were divided between **managing product development** works and ensuring great **Developer eXperience** for related company products. I also have designed a **UI Library** for existing and upcoming services developed by Platform of Trust.

### UI / UX Designer

**Sampo Software Oy** Tampere, Finland Jun 2016 - Jan 2019

I worked on projects that were diverse from one another in terms of target audiences and key-problem area solutions (API management system, real-time monitoring of biomass equipment, and secured bike storage.) My work spanned from doing **user research, wireframing**, to creating **low/mid fidelity prototypes, interaction model, usability evaluation**, and **user onboarding materials**.

### Sr. Software Quality Assurance Engineer

**Ohon Tech Ltd.** Dhaka, Bangladesh May 2014 - Aug 2014

I took the responsibilities of managing an offshore software quality assurance (SQA) team of a USA based software firm.

### SW Business Development Executive

**TigerIT Ltd.** Dhaka, Bangladesh Oct 2013 - Apr 2014

I worked in the **tender procurement** for government and international ICT projects. I also composed **technical documentation** of company products.

### Software Quality Assurance Engineer

**SoftwarePeople Ltd.** Dhaka, Bangladesh Aug 2011 - July 2013

I worked to **analyze requirements**, prepare and manage **test cases**, execute **manual & automated testing**, **track bugs**, etc.
